

As a smart business person, you know the need to reinvest in your business to keep it vital and growing, responding to its customers' needs. If you expect a crop, you have to plant seeds. Too many popular compensation plans reward you for forced growth harvesting. They give no system to plant the next crop each month. The very life blood of any Network Marketing company is new product sales, new distributors and the newest distributor making enough money to pay for their own product and qualification from month to month. You have these three things in Nuriche.

The Nuriche Stay-At-Home Income plan delivers a replicatable system. Whether you choose to Stay At Home, have been compelled through circumstances outside your control to Stay At Home or want to work full-time at home, each phase of the Nuriche Income plan allows you to make that choice and more.

Unlimited potential earnings, Take control of your time and finances, Live the lifestyle of your choice.

Prosper Qualified Distributors in Nuriche are building on a solid foundation of productive activity that generates significant income and rewards for participants at each Phase of the Income plan. There is a natural progression from SHARE to GROW to PROSPER.

There's an old folk expression that I really like:

“Start where you're at...” Whatever your circumstances are, whatever you can see yourself doing, whatever action your dreams inspire you to take...you have to start where you're at! And we have a place for you to start.

Buy your **first unit** of product each month in the SHARE Phase and get paid according to SHARE compensation structures.

Buy your **next two units** of product each month in GROW and qualify for improved income based on two units from everyone who buys a total of three or more units of product in a month.

And finally, **PROSPER** is designed for distributors who can easily deal with 6 or more total units in a month.

Don't forget that PROSPER distributors continue to earn , retail and group commissions in SHARE and GROW phase each month. The bonus pool rewards of SHARE and GROW are reserved for distributors who are creating new volume and new distributor growth in a calendar month and if a PROSPER distributor meets the criteria set out for bonus pools in SHARE and GROW they will enjoy the income from those pools too. If a PROSPER or a GROW distributor stops sponsoring new customer or distributor volume, they may fall short of the qualifications for Bonus Pools, but their volume will create larger pool share for the new distributors *who are sponsoring* their first customers and moving them through the systems and phases. This is like planting seeds to guarantee the next crop. You nurture and care for the seedlings as they grow and they will produce fruit to be harvested and enjoyed.

Why is the earning potential unlimited in PROSPER?

Nuriche sets no limits on the size of your downline organization. Replicate a successful system and multiply your results through those who are in your group. Everyone on the same page...No limit there!

SHARE , GROW and PROSPER Bonus pools offer you a prorated percentage of the entire company's commissionable volume *at each phase*. That literally means that everyone is in your downline every month for bonus pool earnings purposes. No limit here!

PROSPER Distributors automatically qualify for the SHARE and GROW retail and group commissions.

Every purchase by Retail Customers, AutoOrder Customers or AutoOrder Distributors earns you a retail commission each week varying from \$5 -\$ 15 every month in *SHARE and GROW*.

Make the sale once, get paid every time the customer places a new order. Every time. Unlimited residual income.

PROSPER distributors earn 5th Generation SHARE commission because they are also GROW qualified.

PROSPER distributors qualify for **GROW 5th and 6th level Matching Bonuses EVERY MONTH**, offered as soon as their personally sponsored distributors replicate to their 5th and 6th levels. The match is 100% of the 4% or 3% commission paid to your personally sponsored distributor. No Limit there!

The PROSPER Phase opens some **very lucrative income opportunities** from the volume purchased in the Prosper Phase. Remember, each Prosper distributor is purchasing 120CV or three units minimum in PROSPER each month. PROSPER Commissions are calculated on up to 8 levels based on your PROSPER rank achieved for a calendar commission month. Both standard and dynamic compression make sure that commissions in the PROSPER Phase are maximized. See the PROSPER Chart pdf for the details.

PROSPER Matching Bonuses are paid on your personally sponsoreds' 6th, 7th, and 8th level when you have the qualifying number of personally sponsored PROSPER Distributors in your group . See the PROSPER chart for details.

Global Executive Rank distributors share **4%** of all commissionable volume in PROSPER each month.

International Executive Rank distributors share **2%** of all commissionable volume in PROSPER each month.

2% of all commissionable volume in PROSPER and 3% of all commissionable volume from GROW each month is directed to an Incentives Pool, such as the Nuriche Builder Blitz, that results significant rewards to all distributors who take committed actions to grow their businesses. In addition, the resulting organization stability, growth in income producing activity, funding to bonus pools and matching bonuses for all distributors is increased through such targeted Incentives.

Take control of your time and finances

Do you know that recent studies show that **the difference between making ends meet financially each month and bankruptcy is about \$500 a month?** Falling short by \$500 each month becomes very difficult to get out from under as the months progress. The Nuriche Stay-At-Home Income plan can help you support or cover your income needs. While there is never a guarantee of income, when you do what we ask, you will be paid.

Believe it or not, you do have discretion over blocks of time, large and small, which can be turned into income. Pay attention to times when you feel like you may be wasting time and turn them into income producing activity. Let me give you an example: Can you address and stamp two envelopes a day Monday to Friday, even while watching TV, stuff the ten envelopes with a Nuriche sample mailer and then drop them in the mail Saturday morning or on your way to shop or at work? Can you then make two calls a day to see what your friends thought about the product samples and invite them to your free Nuriche website to enroll or buy product? Can you repeat that cycle twice a month? One week mailers, one week calls... See... you have time to do this! **Do you have time to cash a commission check?**

By the way...just four friends buying the product each month more than pays for your one unit purchased this month in the SHARE Phase.

Live the lifestyle of your choice

The Nuriche Stay-At-Home Income plans lets you work at the pace at which you are comfortable. **SHARING product** and Income opportunity part-time to make a few hundred dollars **or GROWING your commitment** to a Stay-At -Home business and making several thousand dollars to support the family. And maybe, you'll find or have already experienced the comfort of in being in control of your income and what you do each day **and PROSPER** with Nuriche as you never thought possible, creating a lifestyle of your choice and not one dictated by a boss, the bank or some global market induced economic downturn. **People need what you have to offer through Nuriche as never before.**

You are right at the leading edge of market trends indicating the strongest desire by the broadest consumer profiles ever for our amazingly simple, whole food nutrition products. Join nutrition needs to the worst economy in the last quarter century and you have an opportunity whose time is right, **RIGHT NOW!**

Most of all...Remember the goodness.
